Tall Tomato Plant

Joe Ferrell, Rt. 3, Appomattox, admires a 7 4' tomato plant that has provided his family fresh tomatoes this summer.

Joe says the large plant is the results of daily watering and the use of liquid fertilizer.

Keep In Touch With God

When the day is young, and
your heart light an gay
Take a little time off and kneel
down to pray
Before you begin your chores
while you are at your best
For the tempter will sorely try
you ere the sun set in the west
So hasten to the one who is able
to keep you, to help you win
The one and only one, who can
deliver you from sin.
The one who before you the
long pathway hath trod
Yes, dear friend of mine, keep
in touch with God.

Keep in touch with God, when
the days are drab and gray
When bright and sunny-for you
need Him all the way
When you are lonely and
friends seems so few
Remember, there is one who is
always near you
When you are ill, and
distressed and don't know what
to do
He is the one you'll need to
know, tried and true
Just give the SOS call, He is
always on the line
Get in touch with God, He'll
help you friend of mine.

Keep in touch with God, no
matter where you go
He'll be with you because he
really loves you so,
When bowed down low beneath
some heavy load
Look heavenward, He knows
the cross you bear
Yoke up with Jesus, your cares
he'll gladly share
Just dial heaven, and ask for
the royal line
Keep in touch with God. He'll
lead you friend of mine

1974 Wheat Program Details

Conservation (ASC) Committee.

Mr. Ford said 1974 allotments will be based on the national allotment of 55.0 million acres, announced Aug. 16 by Secretary of Agriculture, Earl L. Butz, and that individual allotment notices will be mailed to farmers in a few days.

The allotment represents the number of harvested acres of wheat, based on the estimated average yield, which would result in production equal to estimated domestic and export disappearance in the 1974-75 marketing year. The allotment does not restrict the amount of wheat that can be planted.

Secretary Butz announced the 1974 Wheat Program shortly after the four-year Agriculture and Consumer Protection Act of 1973 was signed into law, Mr. Ford said, noting that the Secretary said the program is designed to encourage all-out production.

The Chairman listed the following 1974 Wheat Program details:

New to the wheat program is the target price feature. If the average market price for wheat is at or above the $2.05 per bushel target price, the producer will receive no payment. If the price average is below the target, the producer will receive the difference between the target price and the average price received by all farmers during the period from July through November 1974.

There will be no preliminary payment. Any payment due will be paid after December 1, 1974. If the five-month average price falls below the $2.05 target, a producer would be paid on an amount of bushels determined by multiplying the farm allotment times the projected yield established for the farm by the county ASC committee.

As announced earlier, there will be no set-aside requirement for 1974 and there will be no conserving base requirements for the four-year life of the 1973 Act, Mr. Ford said.

And, for 1974, producers may substitute any annual non-con-

serving crop or a cropland conserving crop used for haying or grazing in order to preserve their wheat allotments and to make them eligible for any payments under the target price feature. Crops for which a marketing quota is in effect are, of course, excluded.

Loans will be available to producers on their 1974 crop wheat at a national average of $1.37 per bushel, an increase of 12 cents over 1973 crop loans.

The requirement that processors purchase certificates valued at 75 cents per bushel on each bushel of wheat processed for human consumption was eliminated by the 1973 Act, Mr. Ford said.

Appomattox county wheat producer's allotments for 1974 will be about three times their 1973 allotments, according to James R. Ford, Jr., Chairman of the Appomattox county Agricultural Stabilization and

Mission Study Class

On Thursday, Sept. 6th, at 7:30 p.m. the book, **Light Three Candles** will be taught at Union Hill Church. Mrs. Chiles Cridlin, State Mission Study Chairman, will teach the book. All WMU members and Baptist young women in the Appomattox Association are invited to attend the class.

Homecoming Day & Revival Services Set

Homecoming will be observed at New Testament Baptist Church located at 14th and Hendricks Street in Lynchburg on Sunday, September 2nd. Worship service will be conducted at 11:00 a.m. with dinner served on the grounds following the service.

A Gospel Singing Service will begin at 2:00 p.m. and will feature THE SPIRITUAL ECHOES from Durham, North Carolina. They will be singing in all services that day. There will be other special singing also.

Revival services will begin with preaching each night at 7:30 p.m., Sunday through Saturday night, September 8th. The Rev. Jerry Hooper of Durham, North Carolina will be the guest speaker.

Don't miss these services. Come and bring your family and friends.

Rev. R. B. Baber is pastor of the church.
